OUR AI TRANSFORMATION ENGAGEMENT APPROACH

- Every engagement begins with **AI Awareness** and **AI Readiness** assessment to understand opportunities and challenges.
- Through the **"1 AI / 1 Business"** or **"1 AI / 1 Department"** methodology, we identify high-impact opportunities.
- We design **AI solution blueprints** tailored to real business and institutional needs.
- We validate concepts, develop practical **prototypes** and minimum viable solutions.
- We deliver **implementation roadmaps** that drive measurable business, institutional and societal impact.

15 Organisations

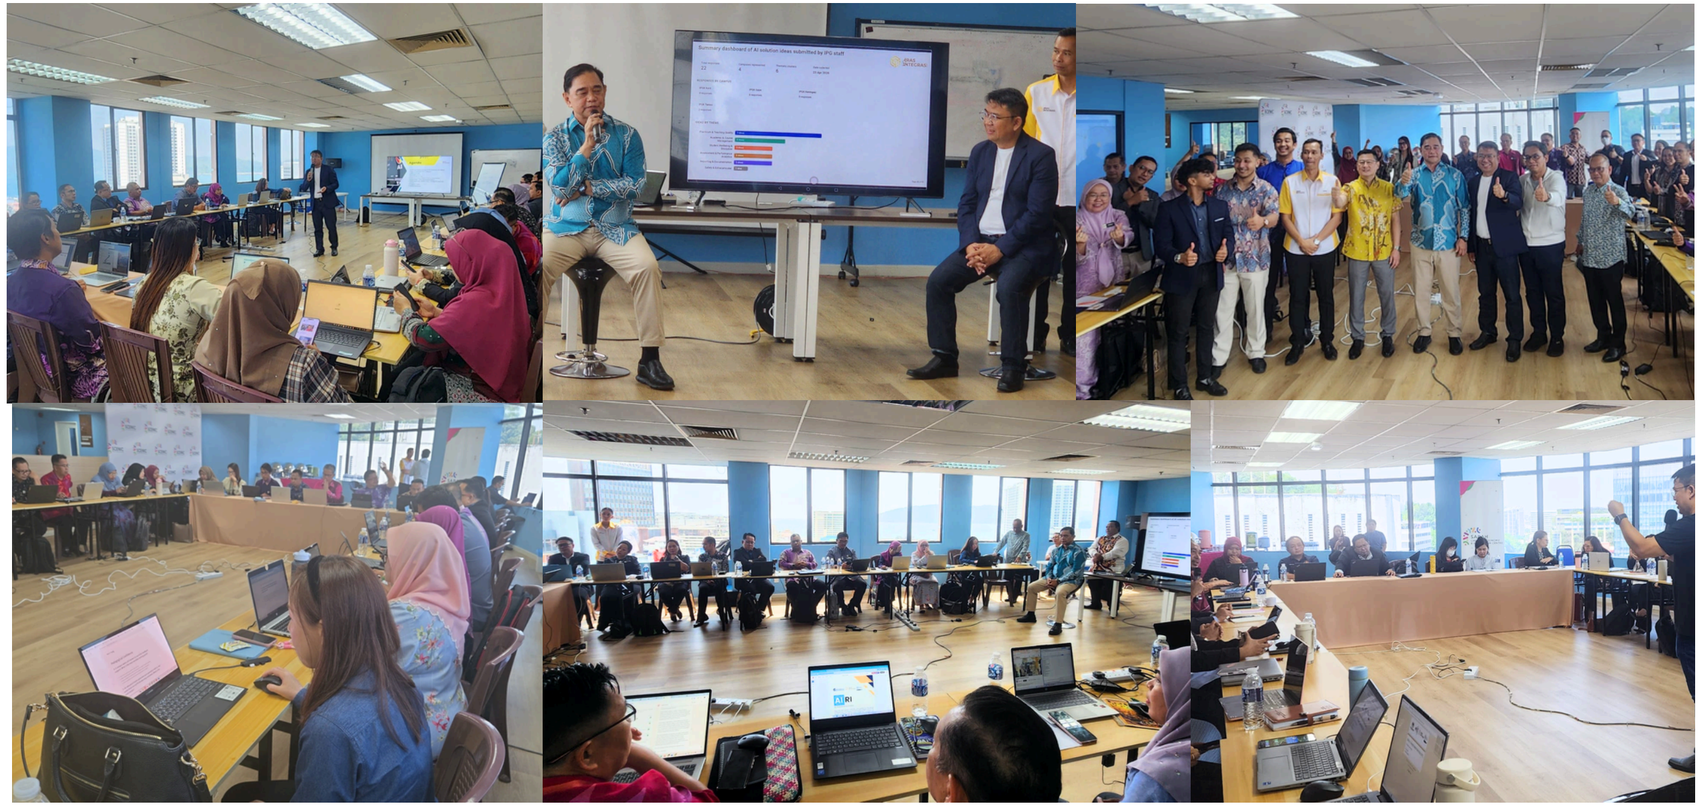

≈346 AI Projects, Pilots & Proofs of Concept

GOVERNMENT · HIGHER EDUCATION · FINANCIAL SERVICES · CAPITAL MARKETS · ESG & SUSTAINABILITY · COOPERATIVES & CORPORATES · ENVIRONMENT CONSERVATION · INTERNATIONAL DEVELOPMENT

"Starting with the AI Awareness Program and Strategic Plan, each organization can proceed with the 1 AI/1 Employee Program to develop AI prototypes focused on achieving specific impacts."

Summary (Sabah Ministry of Education, Science, Technology and Innovation (KPSTI))

AIDT Lab Team, led by Prof. M Nazri Muhd (Executive Chairman & Chief AI Strategist) and Mr. Effie Rizal Mustafa Kama (Project Lead & Head of Strategies and Solutions), provides strategic AI architecture, governance, solution design, and implementation, delivering scalable, citizen-centric, data-driven digital transformation outcomes for KPSTI.

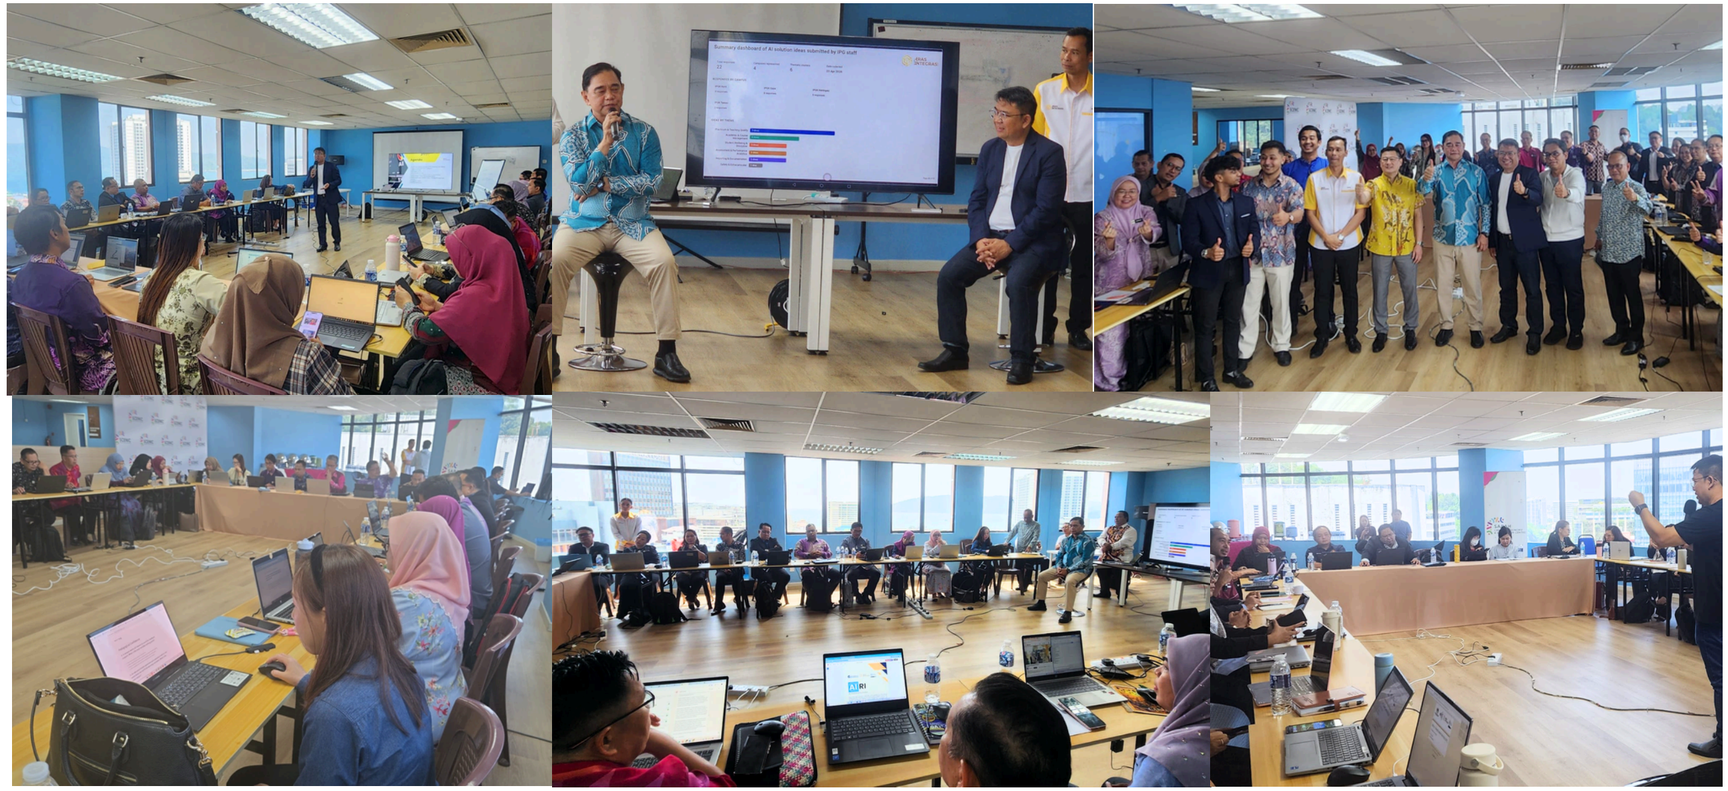

26

No. of AI pilots / POC

Summary (Institute of Teacher Education (IPG), Sabah)

AIDT Lab Team, led by Prof. M Nazri Muhd (Executive Chairman & Chief AI Strategist) and Mr. Effie Rizal Mustafa Kama (Project Lead & Head of Strategies and Solutions), provides strategic AI advisory, solution architecture, governance, prototyping, and implementation support, enabling IPG Sabah to accelerate education innovation, digital transformation, and scalable AI-powered teaching excellence.

28

No. of AI pilots / POC

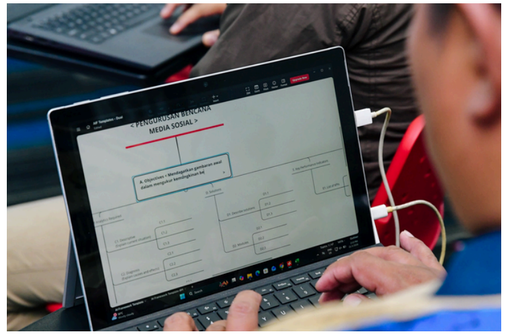

Summary (KEJORA)

The AI Lab Team has been instrumental in designing, delivering and facilitating the AI Awareness Seminar to build fundamental understanding, increase confidence, and provide a structured framework to support the digital transformation and AI readiness of KEJORA employees.

82+

No. of AI pilots / POC

Our engagement framework with Kejora. The items in each component are not exhaustive. They are just examples.

Summary (Johor National Parks Corporation - PTNJ)

JNPC's strategic planning workshop discussed organizational issues, global environmental conservation trends, AI adoption, and a data-driven five-year plan. Our AI Transformation Strategist led this assessment using the AI 4P framework to analyze various situations and build a comprehensive JNPC transformation plan.

74

No. of AI pilots / POC

Summary (Department of Islamic Development Malaysia – JAKIM)

Over a three-day period, the AI Lab Team led by Prof M Nazri in partnership with AI Lab @ Madani Research Centre (MRC) guided JAKIM's leadership in drafting a 5-year digital plan, producing over 40 AI prototypes to strengthen governance, inclusivity and service delivery.

Summary (Institut Dato' Onn-IDO)

Dato' Onn Institute partnered with us to promote youth leadership and development using AI. The collaboration focuses on enhancing the intellectual, social, and financial skills of youth through initiatives such as roundtable discussions, capital index tracking, research publications, webinars, and conferences. The aim is to build capacity and encourage youth contributions to industry, community, and national progress.

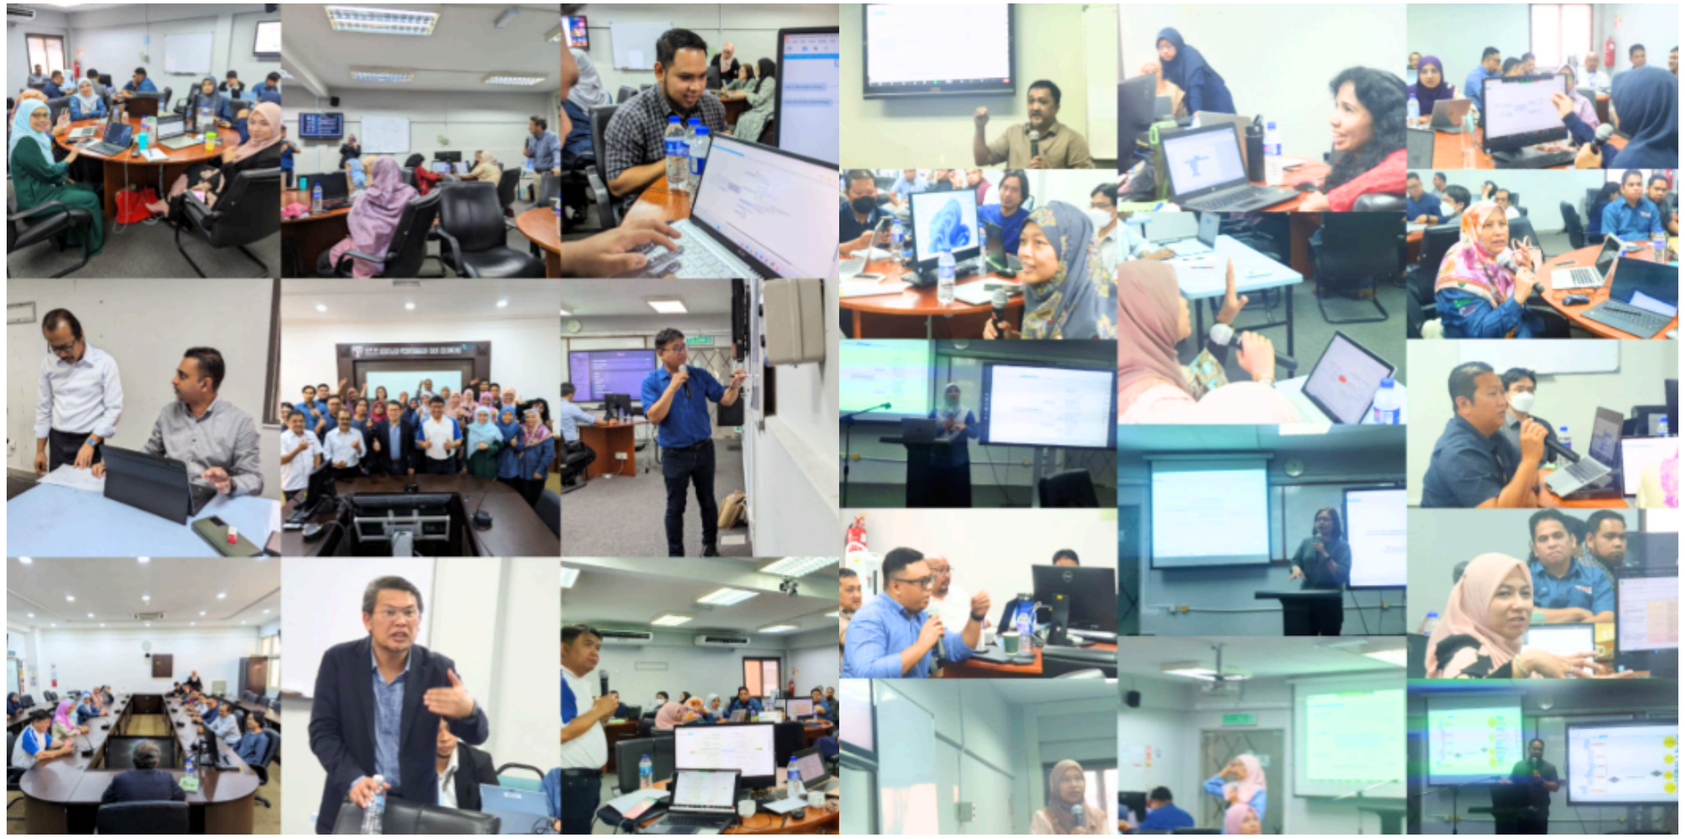

9

No. of AI pilots / POC

Summary (University Putra Malaysia - UPM)

Partnering with UPM, we led the AI Transformation Sandbox by diagnosing institutional challenges, aligning stakeholders, and rapidly designing 23 AI blueprints for pilot—delivering scalable solutions across student success, research, finance, sustainability, and governance outcomes.

23

No. of AI pilots / POC

Summary (Malaysian Cooperative Institute - IKMa)

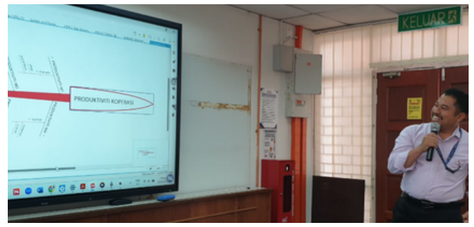

In partnership with IKMa, we conducted an AI Transformation Sandbox focused on how Malaysia's cooperatives can be empowered with AI —aligning institutional priorities with AI-driven solutions that enhance financial governance, digital readiness, training impact, productivity, and long-term cooperative resilience through 14 pilot initiatives.

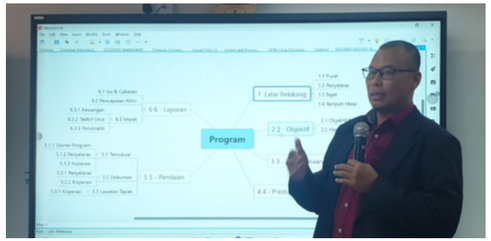

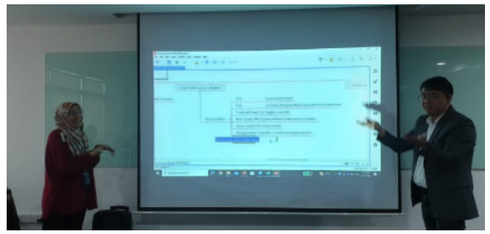

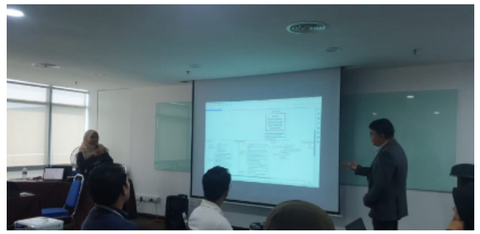

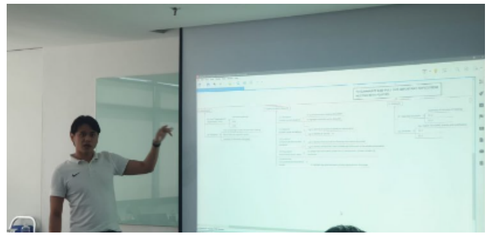

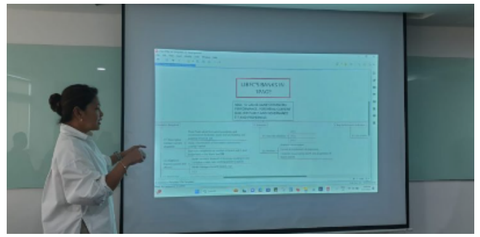

14

No. of AI pilots / POC

Summary (Labuan Offshore Financial Services Authority - LFSA)

With LFSA, their AI Sandbox included us analyzing regulated entities' financial flows (sample), transforming interview data into actionable supervisory intelligence, and deploying AI-driven risk rating models—strengthening traceability, governance, and evidence-based regulatory oversight.

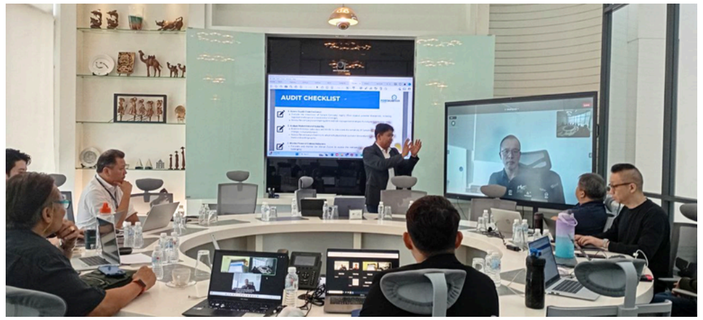

3

No. of AI pilots / POC

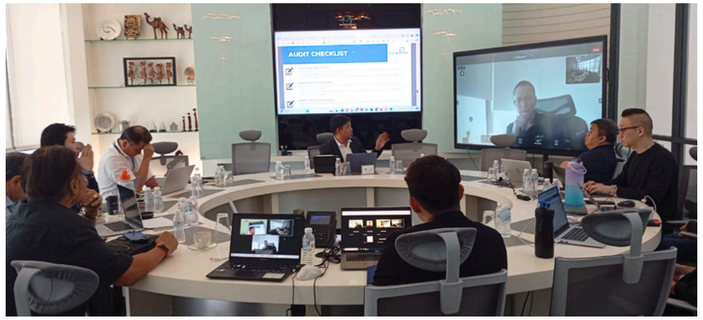

Summary (N2N Connect Bhd)

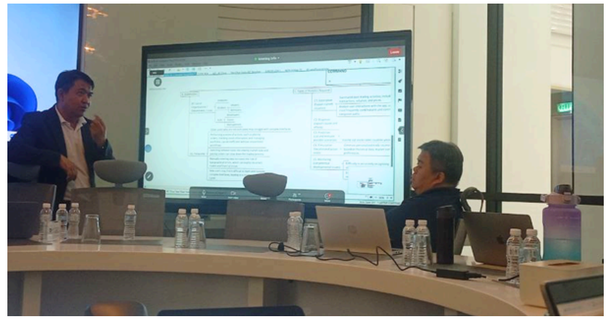

Centre for AI Innovation (CEAI) Global conducted the AI Sandbox Programme for N2N Connect, providing AI strategy, solution architecture, rapid prototyping, and implementation advisory. The programme transformed business challenges into AI-ready solutions, validated product concepts, and produced practical development roadmaps for scalable commercialization and digital transformation.

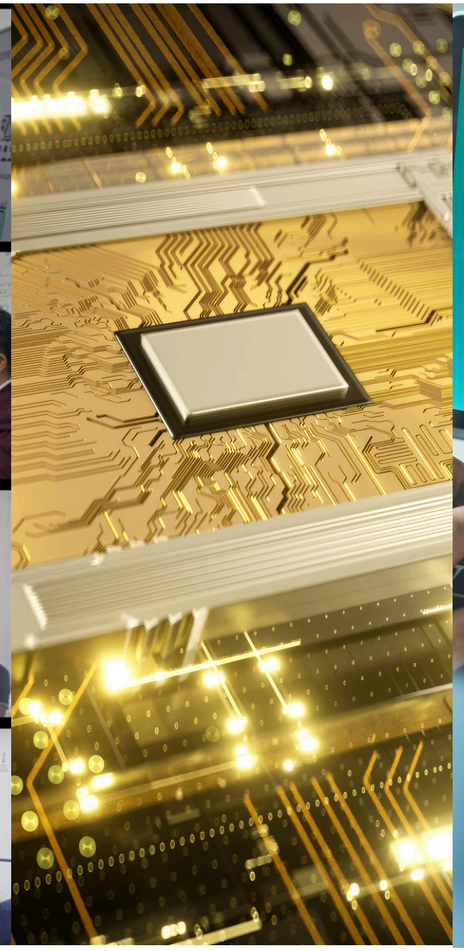

9

No. of AI pilots / POC

Summary (Kapital DX (KLDX))

Centre for AI Innovation (CEAI) Global led and facilitated the AI Sandbox Programme for Kapital DX (KLDX) by providing AI advisory, solution design, product blueprinting, rapid prototyping, and implementation planning. The programme produced validated AI use cases, commercialization-ready product concepts, and practical development roadmaps supporting KLDX's digital capital market innovation and future growth.

3

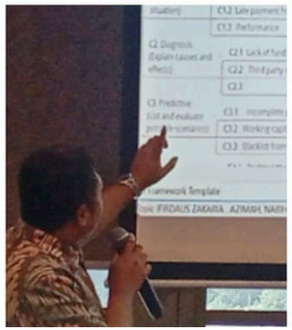

No. of AI pilots / POC

Summary (Venturoso Corporate Services (CapM))

Centre for AI Innovation (CEAI) Global spearheaded the AI Sandbox Programme for Venturoso Corporate Services (CapM), guiding end-to-end AI ideation, solution design, product development, and implementation planning. The programme delivered validated AI use cases, scalable product blueprints, and commercialization roadmaps for business transformation.

17

No. of AI pilots / POC

Summary (10X CEOS Group (known as 10X Strategy Coach))

Centre for AI Innovation (CEAI) Global led the AI Sandbox Programme for 10X CEOs Group (10X Strategy Coach), facilitating the ideation and development of 2 AI-powered strategic advisory solutions. Through AI advisory, product blueprinting, rapid prototyping, and implementation planning, the programme delivered 2 validated AI product blueprints, commercialization-ready concepts, and practical development roadmaps to strengthen business diagnostics, leadership development, and organizational growth.

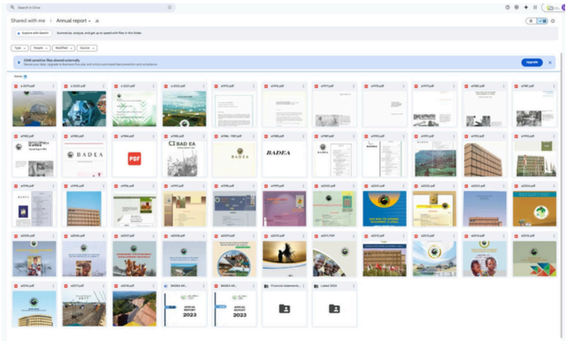

2

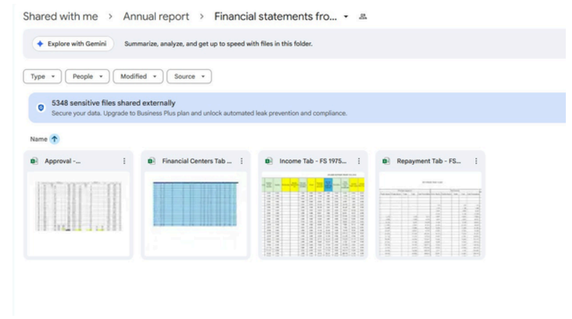

No. of AI pilots / POC

Summary (Arab Bank for Economic Development in Africa (BADEA))

Centre for AI Innovation (CEAI) Global led the AI initiative for the Arab Bank for Economic Development in Africa (BADEA), facilitating the development of 2 AI-powered strategic solutions. Through AI advisory, predictive analytics, solution architecture, and implementation planning, the initiative delivered 2 validated AI product blueprints, evidence-based management frameworks, and long-term strategic roadmaps to strengthen governance, institutional performance, and sustainable socioeconomic development across 22 BADEA member countries.
